

PLATFORM SCIENCE VISUAL FORM BUILDER

Build Useful Forms in Minutes with
PS Visual Form Builder

Open form building to everyone in your fleet using PS Visual Form Builder, a customizable drag-and-drop interface that consistently delivers a great driver experience.

POINT, CLICK, BUILD

What you see is what you get with form building in the Platform Science User Portal, our time-saving tool for removing the headaches of building forms while enabling you to focus on other areas.

CAPTURE ALL THE RIGHT INFORMATION

Our new Visual Form Builder displays all fields and settings with just a couple clicks, making it easier to build forms and reducing the number of steps drivers need to take.

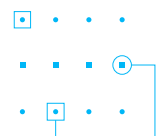

START BUILDING, NO TRAINING NEEDED

Visual Form Builder allows anyone to log in and create a form without the need for training. Its drag-and-drop fields provide easy access to all the options and information you and your drivers need to get the job done.

CREATE A GREAT DRIVER EXPERIENCE

Visual Form Builder syncs with PS Workflow and PS Form Messages to generate comprehensive forms that deliver a streamlined driver experience.

Connect with us to see PS Visual Form Builder in action and learn how we help you fleet stay safe and efficient on the road ahead.

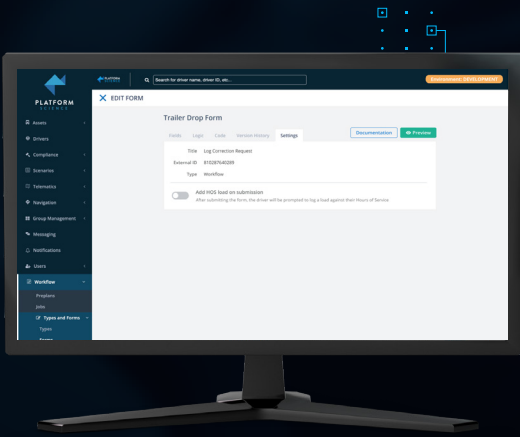

PS VISUAL FORM BUILDER

Feature Spotlight

TEST FORMS RIGHT AWAY WITH FORM PREVIEW

After building a form, you can immediately see how it will appear to your drivers, making it easy to find and fix any potential errors before sharing your forms.

ENJOY THE FEATURES YOU KNOW AND LOVE

Form Builder's intuitive interface and user-friendly options menus deliver a smoother form-building experience.
